

Follow these instructions to add a student to an existing class using their username.

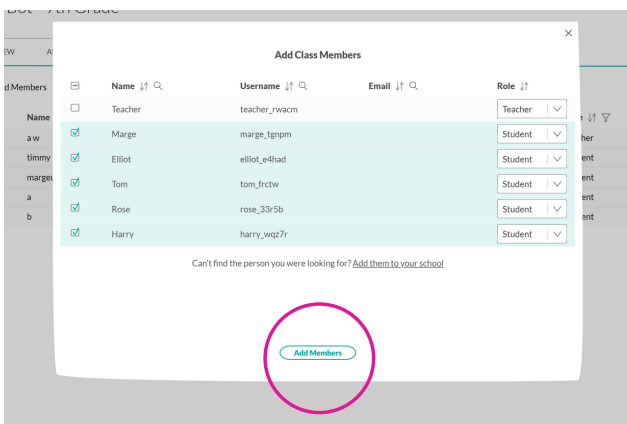

1) Log in and choose a class from the teacher dashboard.

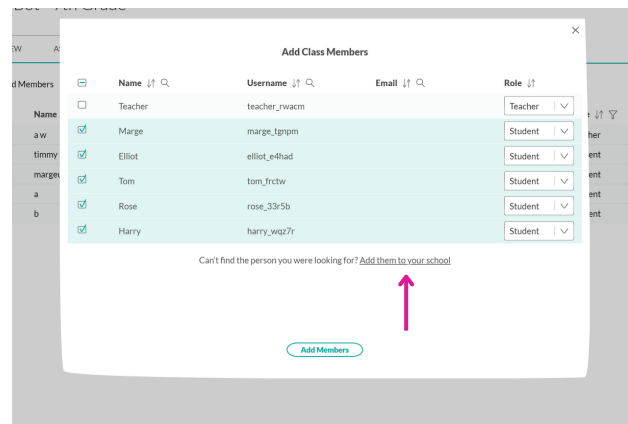

2) Click the + sign (Add New).

3) Check the box next to the student name(s) you want to enroll.

4) Click Add Members.

Note: If your students aren't listed here, click on the "Add them to your school" link and then repeat these steps.

Note: You can also **sync google classroom or clever classes** or allow students to **self-enroll using a join code**.

For more information see our **Further guides**.
